Just a thought but maybe we stop adding to our current infrastructure by approving all of the developments currently in the works. But...that ship has sailed so by all means, make us folk who have lived here forever pay for the short sightedness of the Planning Commission and the Board of Stupidvisors.

Having sat on the Planning Commission and tried to limit the water and infrastructure impact I learned that "Public Comment" has very little impact on decisions made. So, you all are gonna do what you're gonna do. After living here for almost 59 years I'm disappointed in where we are as a community for more reasons than one.

Have a meeting and good luck.

Hope Tingle
